

Company Profile

AQIM MARZUKI ADVISORY

SUSTAINABILITY. STRATEGIZED.

Our Story

SUSTAINABILITY. STRATEGIZED.

At Aqim Marzuki Advisory (AMA), we are not just service providers; we are a **sustainability powerhouse**.

Built on our conviction that sustainability must be strategized, we offer a one-stop solution where strategy, governance, reporting, auditing, and capacity building come together as a complete force.

In a market crowded with superficial compliance, **AMA delivers substance** — real strategies, real transformation, real results. Our services are designed to future-proof businesses, strengthen leadership, and unlock value where others see only obligations. We do not merely tick boxes; we build organizations that set the standard.

As the region's emerging all-in-one sustainability service provider, we work with those who are ready to lead—purposefully, credibly, and powerfully.

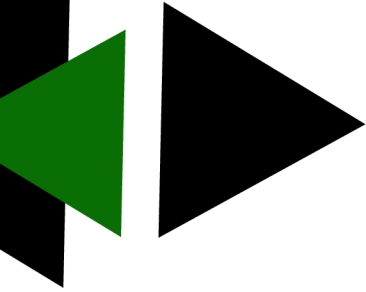

When you engage AMA, you are not just preparing for ESG. You are positioning your company to lead, to inspire trust, and to outperform. We turn ambition into architecture, vision into victory.

This is not consultancy as usual. This is Sustainability. Strategized.

Restoring humanity in finance means that the previously paramount goal of economic growth must now be balanced far more carefully with the goals of environmental stewardship and social inclusion.

Keynote address, SC Chairman, Dato' Mohammad Faiz Azmi

Vision

To be Asia's most trusted and transformative sustainability partner—empowering organizations to lead with purpose, scale with integrity, and thrive through ESG, climate intelligence, and responsible governance.

Mission

To guide organizations through their sustainability journey with clarity, credibility, and conviction. From capacity-building to ESG integration, from assurance to reporting—we deliver cohesive solutions that bridge global expectations with local execution. Our mission is to turn sustainability into a strategic advantage that defines your leadership, resilience, and long-term value.

Values

Strategy with Substance

We don't just tick boxes—we craft bespoke ESG and sustainability strategies grounded in data, impact, and business growth.

Integrity Without Compromise

We uphold uncompromising ethical standards, fostering trust and transparency in everything we do.

Practical Excellence

We merge global frameworks with practical application—offering solutions that work on the ground, not just on paper.

Bold Impact

We're here to change the game. We amplify your sustainability journey with tools, insights, and direction that position you as a leader in your field.

Partnership Beyond Compliance

We become your long-term ally—helping you move beyond compliance into genuine value creation and leadership in ESG and sustainability.

We offer a complete suite of services because building a credible, future-proof organization requires more than fragmented efforts. Our services addresses the real pressures companies face today — from regulatory demands and investor expectations to operational resilience and workforce transformation.

Our strength is simple: we offer the complete sustainability journey.

Capacity Building

We don't deliver trainings, workshops and seminars to create that sustainability culture into your people, operations and organization. We too ensures that your company meets the latest regulations and guidelines related to sustainability, Through HRDC-accredited, impact-driven programs, we equip your teams to lead in the serving the planet, the people and earning ethical profits.

Sustainability Speaker

When sustainability needs a credible voice that cuts through the noise, we deliver commanding keynotes, sharp masterclasses, and boardroom briefings that don't just inspire — they ignite action.

Consultation

Framework confusion? Carbon strategy? ESG risks? We slice through complexity to create decision-ready strategies for boards, C-suites, and national councils. We also provide project based to handle complicated labor cases for organizations.

Advisory

We advise where it matters most: board governance, investor ESG alignment, carbon trading readiness, climate risk, grievance management, monetizing your green investments and planning for your growth in the green economy.

ESG Audit

We don't just audit. We interrogate your ESG performance with technical precision and board-level fluency. From gap analysis to stakeholder accountability, every audit we deliver is designed to survive scrutiny — and earn credibility with investors, regulators, and markets.

Sustainability Reporting

Forget templated, lifeless reports. We create strategic narratives that speak to investors, regulators, and the market with authority. We align your story with national and industrial requirements, global frameworks (GRI, TCFD, IFRS S1 & S2), turning your sustainability journey into a market advantage, not just a compliance exercise.

CAPACITY BUILDING

Rooted in purpose. Grown by results.

We offer wide range of training related to sustainability. Our experts are capable to shape your organizational at various levels. We share from in dept knowledge and vast experiences. You can choose to utilize your HRDC levy with us.

- Environment, Social, Governance (ESG)
- Sustainability Development Goals (SDG)
- Climate Change and Carbon Emission (TCFD)
- Grievances Management
- Sustainability Reporting through CSI Solution by Bursa Malaysia Platform

Training & Advisory

SPEAKER

When sustainability needs a voice that's credible, commanding, and catalytic..

Aqim Marzuki Advisory offers professional speaking engagements on ESG, sustainability, climate change, labor matters in the evolving global green economy. With a commanding presence and deep technical expertise, our speaking services are tailored for boardrooms, executive forums, industry conferences, policy roundtables, and leadership retreats.

Speaking formats include:

- Keynote addresses for national and international conferences
- Board and C-Suite sustainability briefings
- Thematic masterclasses on ESG trends and regulatory developments
- Industry-specific talks for HR, finance, supply chain, and public policy
- Public awareness forums, university guest lectures, and media

Whether addressing a crowd of 1,000 or leading an intimate executive roundtable, our speaker delivers clarity, credibility, and impact — leaving audiences informed, inspired, and ready to act.

ADVISORY

You've got the ambition. We bring the architecture.

Advisory at AMA, advisory means measurable transformation. Do not be overwhelmed with fragmented frameworks, investor pressure, or unclear ESG narratives. We will ensure you leave with boardroom-ready strategies, investor confidence, and sustainable positioning that holds up under scrutiny.

Our founder also serves as Vice President of the International Green Technology Research & Development Institute (IGTI) and is an Institute Consultant for the International Climate Action Services (ICAS). These affiliations provide strategic access to cutting-edge policy insights, global frameworks, and technical know-how — which we bring directly into the boardrooms and executive teams we advise.

We advise boards, C-suites, and national councils on matters that define long-term success — including climate strategy, governance accountability, carbon monetisation, and sustainability-linked growth.

Our core advisory areas include:

- ESG and SDG strategy development for **investor and regulator alignment**.
 - Board and governance structure reform for Bursa and global frameworks
 - Carbon trading readiness and project monetization pathways
 - **Climate risk assessment** based on IFRS S2 and TCFD
 - Human rights and supply chain due diligence advisory
 - SDG integration for public value and national impact.
 - People management and conflict resolution.
- 

CONSULTATION

Your journey to a greener, smarter future starts here.

Whether you're preparing for Bursa Malaysia listing requirements, mapping out your carbon strategy, establishing ESG governance, or aligning with SDG targets — our consultation transforms these frameworks into actionable roadmaps.

Our work is designed for decision-makers: board directors, C-suites, sustainability leads, HR strategists, procurement heads, and risk managers.

Every engagement is built around your business model, regulatory exposure, stakeholder expectations, and market opportunities. We bridge the gap between compliance and competitiveness — helping you make decisions that are not only responsible but also profitable.

Whether you're preparing for Bursa Malaysia listing, planning a decarbonisation strategy, or **embedding ESG into governance and management** — we translate global frameworks into local action.

Current Consultation Projects We Deliver:

- Bursa Malaysia Sustainability Reporting (Main & ACE Market)
 - ESG & SDG Strategic Planning Frameworks
 - Carbon Footprint Baseline Assessment (GHG Scope 1, 2, 3)
 - Materiality Assessment & Stakeholder Mapping
 - ESG Risk Register and Integration into ERM
 - Sustainability Policy & Governance Framework Design
 - ESG Due Diligence for M&A or Investment Readiness
 - Green HR Policy & Sustainable Workforce Roadmap
 - Climate Scenario Analysis & TCFD Alignment
 - Net Zero Strategy & Decarbonisation Roadmap
 - SDG Mapping for Social Impact or CSR Strategy
 - ESG KPI Development & Board Dashboard Reporting
 - Each project is custom-built. Always practical. Always strategic.
- 

ESG AUDIT

Built on Frameworks. Backed by Evidence.

Our audits combine technical precision with board-level insight. We bring in-depth understanding of both local requirements and global benchmarks. We also provide ISO,SAI, MPOB, GHG audits related to ESG, SDG or other sustainability frameworks

We conduct ESG audits for:

- Public-listed companies preparing for Bursa disclosures
- Supply chain partners needing Tier 1 compliance visibility
- State-owned and government-linked companies aligning with national sustainability mandates
- MNCs ensuring internal ESG controls meet investor expectations

What we deliver:

- Gap analysis against ESG, SDG, and climate and labour frameworks
- Stakeholder, risk, and materiality review
- Board-level accountability and policy assessments
- ESG data assurance and readiness for reporting
- Social Accountability International (SAI)

IMPORTANT

Should you choose to get your company to be ESG certified, we can bring in our audit partners to undertake the task. Nevertheless, our works will prepare your company for any third party verification. You are good to go!

SUSTAINABILITY REPORT WRITING

Global frameworks, local fluency, and a message that lands.

We offer end-to-end reporting solutions for organisations seeking to align with Bursa Malaysia requirements, global sustainability standards, and stakeholder expectations — without losing sight of strategic clarity or business relevance.

Our services include:

- Comprehensive report development for both Main and ACE Market companies
- Technical alignment with GRI, TCFD, IFRS S1 & S2, SEDG, and SDG Impact Standards
- Materiality assessment and stakeholder engagement analysis
- ESG performance narrative, target tracking, and disclosures
- Board statements, governance structure, and risk articulation
- Data organisation, visual formatting, and audit-readiness enhancements

Every report is designed to reflect the unique DNA of your organisation — its values, risks, ambitions, and journey. With a balance of technical depth and narrative finesse, we ensure your report speaks confidently to regulators, investors, and the wider market.

Our Focus. Your Advantage.
